I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce

Green white green rapping, big dogs clapping
I do it so good, your promoters are yapping
I lean and I bounce with it, every day status
While in the kitchen, trying to cook, we are popping bottles
I'm getting cake, okay, k, k, make we celebrate
This is the lean song, you can make it a theme song
Bounce and wiggle, what we do is clean and simple
I can stand straight but I lean to catch the bait
So when y'all see me bouncing, just know I have got a mate
And that's the swagger that they see that they are going gaga
They are busy winking, they got your home boy thinking
But I must go home after the fourth glass I'm drinking
Oh oh why!

I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce

Bounce, bounce, bounce, eshamo
Bounce, bounce,
I lean, I bounce
Eshamo
Bounce, bounce, bounce, eshamo
Bounce, bounce,

With my own stanza
I shut you critics up like cancer
I flow so strong like Black Panthers
Lyrics never watery, I always do juice it up like Dansa
I keep my mic strong like lap dancers
Foot soldiers, don't make me run over you cos I'm a Panzer
Many questions, I got the answer
Industry dudes, all Imma say to you is barawo banza
You can't strike me like The Mpenzas

I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce

Now everybody stand up, about to do me a favor
This is the first time I'm rhyming on some Southside flavour
You can call me rap's saviour, a true boss player
I floss for the papers and I toss on haters
I was born for this rap shit when I rhyme shit happens
Sure to sell a million copies every time I drops hit
Now get the champagne bottles and pop it
This party ain't stopping, we parking lot pimping and rocking
You know the rules, how we do, no love for sticky fools
Up in the club sipping rum brewed for a chosen few
So much efizzi when I ride, bounce on twenty two's
Wheels spinning, grills glittering, rocking plenty jewels
I'm in the hood in a Benz with Lamborghini doors
Watching them ladies, half naked, in bikinis yo
You haters act like u dont know me, you never heard of my shit
Well I'm the nigga with the trigger about to murder this beat

I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce
I lean, I bounce
I lean and I bounce

Bounce, bounce, bounce, eshamo
